

Frog Metamorphosis

DIRECTIONS: Use your textbook, or internet sources to find pictures of frog metamorphosis. Study the pictures carefully. Draw a detailed diagram that shows the sequence of events in the metamorphosis of the frog. Once you have completed your diagram, complete the section below.

Number the following events in the correct order from first to last:

- ___ Tadpoles feed on algae.
- ___ The frog begins life on land.
- ___ Female lays her eggs in the water.
- ___ Legs and lungs begin to develop.
- ___ Tiny tadpoles develop inside the fertilized eggs.
- ___ The tail begins to shorten.
- ___ Tadpoles hatch out of the eggs.

LS – Activity #16

___ The eggs are fertilized by the male.
