CIRCLE ENEWSLETTER

IN THIS ISSUE: March 2007
A. Email Addresses for Profile 2007
B. Andrews SmartLabsV Workshop, Coursework & Fast General Physics
C. Southern Masters in School Counseling
D. Walla Walla Summer Sessions
E. Library Databases for K-12 Schools
F. Summer Committee Calls for Spiritual Resources
G. CIRCLE Features This Month
H. Collaborative Student Surveys

A. EMAIL ADDRESSES FOR PROFILE 2007
Larry Burton, Professor of Teacher Education at Andrews University, is coordinating the NAD-wide research team which will conduct the 2007 Profile Research study for the NAD Curriculum Committee (NADCC). To reach every NAD Adventist teacher and administrator for their feedback on curriculum and instructional issues via an online survey questionnaire, schools and conferences can help by sending a current email list for all their teachers to research associate Giny Lonser at lonser@andrews.edu. The Profile series of studies have been conducted under the authority of the NADCC every two or three years since 1987. The results of these Profile studies have been used over the past 20 years by the NADCC in their decision making processes and strategic planning. Watch for the questionnaire link in April 2007. Read research reports at http://circle.adventist.org/browse/?browse_node=430

B. ANDREWS SMARTLABS V WORKSHOP, COURSEWORK & FAST GENERAL PHYSICS
Information for Workshop, CourseWork & Fast General Physics
Support: For teachers without local or conference support, Lake Union Conference Teacher Grant or The Bruce and Barbara Lee Endowed Scholarship
Place: Andrews University, Department of Physics
Contact: Margarita Mattingly, Chair – (269) 471 3508 – physics@andrews.edu

Andrews University Smart Labs V Workshop
Add to your physics lab skills with materials and know-how from the SmartLabsV Workshop. Bring a student assistant with you at no additional cost and enjoy a full program of basic and enhanced laboratory work. Enjoy captivating simple demonstrations and inexpensive laboratory activities as well as high-tech measurement schemes.
Dates: June 11-15, 2007
Cost: $150 workshop fee, $700 for 1 graduate credit hour (optional)
Credit: PHYS648 Workshop: Smartlabs V (1cr)
Interest group: Secondary and middle school physics teachers and secondary education pre-professional students
Preregistration: http://physics.andrews.edu/smartlabs

Andrews University Smart Labs CourseWork
Get your physics endorsement in three summers of 2-week intensives beyond a foundational physics sequence. These classes, tailored specifically to the busy educator, bring you up to speed on topics that will engage middle-school and secondary students. Put it all together and get the big picture in a nurturing environment.
Dates: June 18-29, 2007
Cost: $2100 for 3 graduate credit hours, $89 lab fee
Credit: PHYS530 Topics in Teaching Physics (3cr)
Interest group: Secondary and middle school physics teachers and pre-professional science education students  
Preregistration: http://physics.andrews.edu/smartlabs

Andrews University Summer Physics for Fast General Physics  
Foundational physics in record time with the focus and help you need—with an understanding university professor, supportive tutors, and helpful teaching assistants. Consider this: 8 credits in 8 weeks, no distractions, lots of camaraderie; individual attention, and a special tuition rate. This is a unique opportunity. If you need the physics foundational course to kick start your plans to teach science, this could be the summer course for you.

Date: May 14 – June 8, 2007 General Physics I & June 11 – July 6, 2007 General Physics II
Cost: Reduced tuition rate $550/cr (normally $700/cr); $89 lab fee per session; $300 deposit (applicable towards tuition)
Credits: PHYS141 General Physics I (4cr) & PHYS142 General Physics II (4cr)
Prerequisites: College mathematics with trigonometry or P4 math placement exam score. No high school physics is required.
Interest group: Secondary and middle school physics teachers and pre-professional PreMed, PT, Architecture, Physics Education or Science Education students
Pre-registration: http://www.andrews.edu/ptc

C. SOUTHERN MASTERS IN SCHOOL COUNSELING  
Have you thought about getting a master’s degree? Would you be interested in pursuing school counseling? Southern Adventist University offers a Christian-based master’s degree in School Counseling that is accredited at the state and national levels. Because of the low student/teacher ratio, students receive individualized attention from friendly and caring professors with very distinct Christian perspectives. This kind of atmosphere has led to a high level of student success. In fact, the last graduating class had a 100 percent pass rate on the required licensure exams. Courses are conveniently scheduled to allow students to work while earning their degree. If this sounds like something you’d be interested in, call Southern’s graduate school at 423.236.2694 or visit http://graduatestudies.southern.edu/education.

D. WALLA WALLA UNIVERSITY SUMMER SESSIONS  
Link to Walla Walla University’s summer session schedule at http://www.wwc.edu/academics/summer/2007. Learn about their smart start program, or compare K-12 teacher continuing education options for summer 2007, all from this link. Course offerings include art, biological sciences, business, chemistry, communications, computer science, education, psychology, engineering, english, health and physical education, history and philosophy, mathematics, modern languages, music, nursing, physics, social work and sociology, technology and theology.

E. LIBRARY DATABASES FOR K-12 SCHOOLS  
The Adventist Library Information Cooperative (ALICE) would like to extend its group purchasing power to the K-12 schools of the North American Division. ALICE is a cooperative organization that negotiates lower prices for Adventist colleges and university libraries as a group for access to full-text magazines available online. The following online resources are under consideration:

MAS Ultra: Contains full text for over 300 magazines commonly found in high school libraries. Full text is also available for 84,774 biographies and 100,554 primary source documents. Also contains more than 500 pamphlets, more than 350 reference books (including the Columbia Encyclopedia, the CIA World Fact Book and World Almanac & Book of Facts), an Image Collection of 235,186 photos, maps & flags, color PDFs and expanded full text backfiles (back to 1975) for key magazines. Click here for a complete title list.

Readers Guide Full-text Select: Provides searchable full-text for over 150 magazines as far back as 1994 plus professionally written abstracts and high quality indexing of over 200 magazines commonly found in high school libraries. The database is updated daily. Click here for
F. SUMMER COMMITTEE CALLS FOR SPIRITUAL RESOURCES

Finding resources to teach from an Adventist worldview is not always easy. NAD invites teachers and conferences to share spiritual resources they have developed or are using.

1. At the secondary level, spiritual/Adventist resources used in various subject areas to start or enhance lessons
2. At the elementary level, spiritual/Adventist resources not included in current subject areas
3. Publications, CDs, websites or teacher-tested strategies (e.g., journaling suggestions) for a section "What I Do for My Daily Devotions"

Send resource information and a copy of personally developed resources to Garry Sudds, Garry.Sudds@lucsda.org, or Lake Union Conference, P.O. Box C, US Hwy 31, Berrien Springs, MI 49103. Please include title, author, publisher, date (and ISBN) so due credit can be given to the publisher or individual who developed the resource(s). Thank you for spreading the word and contributing before June 2007.

H. COLLABORATIVE STUDENT SURVEYS

Do you have a student wanting to do a simple survey of other Adventist students? Email webmaster@circle.adventist.org a short questionnaire including an invitation to a specific age group and I’ll set it up on CIRCLE’s survey tool, and include the survey invitation in the next CIRCLE eNews. Its free (for 1-20 questions and 1 invitation in a CIRCLE newsletter), and must be anonymous (do not ask for participant names or contact information). I’ll email the data collected 2 weeks after the newsletter goes out.
